The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The granite sink **Aquasanita Helika Lira 960.10E** with a drainer and container is particularly suitable for a large kitchen. The sink has a very practical design. The sink is intended for demanding customers who desire a spacious main basin, a second basin, and a sufficiently large draining area.

The Lira 960.10E sink will meet all your expectations. **Sufficiently large and deep** (20 cm) main chamber of the sink provides enough space for washing large pots and baking trays. The additional tray is intended for rinsing fruit, vegetables, and rinsing meat or for storing small dishes. The sink already has a pre-drilled hole for installing a kitchen faucet and another one for eccentric control.

Among the main advantages of a granite sink are easier maintenance compared to a stainless steel sink, which needs constant polishing. Granite sinks are available in several color variations.

The equipment of the Lira 960.10E sink includes an **eccentric control**. The automatic drain closure is a system that allows you to close and open the water drain using a button. A significant advantage of this solution is the fact that one movement is enough for immediate unlocking of the water without having to immerse your hands.

The advantage of a granite sink is its **color variability** and the possibility to match it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impact, scratches, and high temperatures.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.

Key features of the AQUASANITA HELIKA LIRA 960.10E kitchen sink

- granite sink with a drainer and a second smaller basin, with eccentric control
- Lira 960.10E has an extended warranty of 5 years.
- The advantage is the color variability and the possibility to match it with the rest of the kitchen.
- it is a popular choice among customers for smaller kitchen spaces
- sufficiently deep 20 cm sink basin
- The sink is intended for top mounting.
- suitable for a cabinet of 60 cm
- made of high-quality materials

Note: Colors may slightly differ in reality compared to the photographs, as granite contains natural fillers and pigments.

Final tip : descale using a one-to-three solution of vinegar. Apply the solution to the surface of the sink, leave for a few minutes and remove with a sponge. A more fragrant way is to rub limescale with a cut lemon.
