Axis Kitchen is a European brand of kitchen equipment, specializing in the production and sale of high-quality granite sinks. The company is among the market leaders in the segment of sinks and kitchen faucets. The products are characterized by attractive design and high-quality craftsmanship.

The granite sink with a drainer **Axis Tramontana 860.0E** in a timeless design is a very popular model among customers. It has gained its popularity thanks to its excellent dimensions and simple appearance. The sink is guaranteed to fit into any kitchen, and you can easily match a chrome or granite kitchen faucet to it. With this sink, you will appreciate its smooth surface and sloping worktop, which is slightly recessed, differentiating it from other models.

Ideal large bathtub with ample storage space. The sink compartment with a depth of 20 cm is sufficient for **comfortable dishwashing**. You can use the practical drainer for storing dishes, vegetables, or for thawing food. The sink already has pre-drilled holes for the faucet and the eccentric control.

The Axis Tramontana 860.0E kitchen sink is designed for **top installation** with a minimum cabinet width

of 60 cm. The sink is equipped with eccentric control. The automatic drain closure is a system that allows you to close and open the drain with a button. The important advantage of this solution is that one movement is enough for immediate unlocking of the water without having to dip your hands.

Among the main **advantages** of granite sinks are their resistance to scratches, thermal shocks, high temperatures, and impacts.

Key features of the AXIS TRAMONTANA 860.0E kitchen sink

- granite sink with a practical drainer and with eccentric control
- in the colors white, black, gray, and coffee-colored
- Tramontana 860.0E comes with an extended 10-year warranty.
- It is among the most popular sinks of our customers.
- sufficiently deep (20 cm) sink basin for comfortable dishwashing
- practical tip for dishwashing
- automatic drainage closure - the eccentric is a part of the sink equipment
- granite sink resistant to scratches and high temperatures
- The sink is suitable for a cabinet of 60 cm.
- top mounting of the sink

Little trick: once a week, we recommend impregnating the sink with edible kitchen oil. Rub the dry and clean sink with the oil using a cloth. Let it sit for a few minutes and then wipe it with a clean cloth. This way, you will create a protective layer and give the sink a beautiful appearance. The sink will be like new again.
