

EcoMaster Elektromagnetický ventil

K automatickému spuštění přívodu vody, určeno pro komerční drtiče

EAN: 8596220000736

2 592 Kč

2 142 Kč bez DPH

It serves to automatically start the water supply to the grinder chamber and the rinsing nozzles of the bowl simultaneously with turning on the grinder. This eliminates the need for manual water activation for device operation. The valve thus ensures not only water savings but especially the protection of the machine itself, which must not be started without ensuring the water flow.

Parameters

Dimensions, weight, packaging

Warranty:	2
Device dimensions:	(Width x Height x Depth) 11 x 5 x 6.5 cm
Weight (kg):	0.3
Width of the packaging (cm):	20
Height of packaging (cm):	2
Depth of packaging (cm):	27
Weight including packaging (kg):	0.3
