

Granisil NANOGRAN

Snadná údržba granitových dřezů

EAN: 8596220013774

115 Kč

95 Kč bez DPH

The product is intended for impregnating granite sinks.

Procedure:

- Apply the substance in a thin layer to the surface of the granite sink and then polish it with a soft cloth.
- The final film creates a protective layer against water, dirt, and discoloration. At the same time, it provides the sink with shine and hydrophobizes the surface (effect of water beading).
- Apply every 7-14 days, depending on the intensity of use.

Key features of Nanogran

- it enhances the appearance of the sink
- can camouflage small surface scratches
- It makes cleaning and maintenance of the sink easier.
- Extreme effect

Benefits

- environmentally friendly product
- It protects against dirt and oil.
