The HEPA filter is designed for the Jet Dryer DUO and AIRTAP brushed/black battery-operated hand dryers.

The certified HEPA filter is used to capture even the smallest dust particles.

Cleaning the air and HEPA filter

- With a light tap or by using a vacuum cleaner
- The use of a soft brush is possible.

How to remove the filter from the motor unit of the dryer in the battery

Grasp and pull out the drawer with the HEPA filter from the device. Remove the HEPA filter from the drawer.

Rear placement of the filter into the dryer.

Put the HEPA filter back into the device with the black rubber seal facing upward. Insert the filter back into the drawer. Then slide the drawer with the HEPA filter back into the device.
