# Jet Dryer II. JAKOST STORM

#### VYSTAVENO/ROZBALENO - více informací v popisu

EAN: 8596220006394x **2 860 Kč**2 364 Kč excluding VAT

EAN: 8596220006387x **3 290 Kč** 2 719 Kč excluding VAT

#### II. Jakost

Jet Dryer STORM bílý kov - NOVÝ přístroj, bez viditelých známek poškození. Výstavní kus (prezentace, výstavy). Není v originál obalu.

#### II. Jakost

Jet Dryer STORM stříbrný - přístroj byl zapůjčován na prezentační akce. Oděrky, bez loga. Obal poškozen

STORM represents a combination of compact dimensions of hot air dryers with the drying power of jet air dryers. The robust metal construction is suitable for high-traffic areas. Just install the dryer on the wall and forget about it, no more buying paper towels, no more overflowing trash bins...

### The nozzle in the shape of a blade

The warm air comes out of the dryer through a narrow elongated nozzle. This way, water is not only dried, but also wiped off hands. The drying process is similar to that of large jet dryers.

The air is drawn into the dryer from the bottom side of the dryer through the dust filter.

### Constant temperature throughout the drying process

You don't have to wait long seconds for the dryer to heat up to full power. The Storm reaches operational temperature practically immediately after inserting your hands.

### **Easy installation**

Installation on the wall is done using four screws. Any service or filter replacement is quick and easy. The rear cover of the dryer just needs to be snapped off, you don't have to unscrew anything.

### **Antivandal adjustment (in metal adjustment)**

The metal cover of the dryer is made from a single piece. A 2-millimeter thick sheet resists any vandalism. The surface finish allows for easy maintenance, the dryer only needs to be wiped with a damp cloth. The cover is resistant to damage from a clumsily discarded cigarette.

#### Parts of the packaging:

- Assembly instructions
- Allen key
- 5 x 25 mm self-tapping screw, 4 pieces.
- 5 mm anchor 4 pieces.

## **Parameters**

Basic	param	eters
-------	-------	-------

Basic parameters	
Model:	JetDryer STORM
Use:	Suitable for all types of operations
Warranty:	3 years
Technical parameters	
Mounting method - installation:	Wall
Noise - sound level:	78 dB
Surface finish - color:	White plastic / white lacquer / brushed stainless steel
Controls:	No
Status indication:	No
Boot system:	Automatic- infrared
Trigger distance:	15-20 cm
Warm air:	Yes
Air flow:	23.5 l / s
Air Speed:	85 m / s
UV sterilization:	No
Type:	hot air
Case material:	ABS plastic
Standard air filter:	Yes- filter cartridge
Protective and security elements	
Overcurrent protection, overheating and short-circuit protection:	Yes
Electricity class protection:	I. (protective conductor)
Degree of protection:	IP23
Electric specifications	
Input voltage:	AC 220-240 V
Frequency:	50/60 Hz
Power input:	1800 W
Heating element output:	1250 W
Motor power:	550 W
Motor type:	Serial AC commutator
	Serial AC Commutator
Current consumption:	7.8 A
Current consumption: Standby mode:	
•	7.8 A
Standby mode:	7.8 A <2 W
Standby mode: Power cable:	7.8 A <2 W CEE plug 7/7
