156 Kč bez DPH

The replacement water filter **Spring Source CMF011** is compatible with the Sage BES008 filter. The filter is designed for coffee machines and is installed directly into the water reservoir. It adjusts the water pH to neutral.

**Spring Source CMF011 Filter Insert** contains high-quality ion exchange resin and activated carbon which stabilize calcium carbonate and remove impurities. This improves the taste and aroma of coffee. The filter improves the performance and efficiency of the coffee machine. It also extends its lifespan by keeping the machine clean. It prevents the coffee machine from being contaminated due to calcium deposits.

The Spring Source CMF011 water filter takes care of improving water quality and **prevents the formation of limescale** inside the coffee machine.

The filter is made of food-grade materials certified by NSF, without any lead content. It does not contain any harmful substances. It complies with European regulations on food quality EC-1935/2016, ROHS, REACH, BPA-Free, TUV.

We recommend **changing the filter every two months** in the coffee maker. The replacement of the filter is very quick and easy.
