

# VinoTek Sada na napojení externí cartridge

Vše potřebné pro připojení další cartridge s argonem.

EAN: 8596220003348

**2 291 Kč**

1 893 Kč bez DPH

Thanks to this set, you can connect an external input of another cartridge with argon. This set is a standard part of the packaging of all VinoTekas (except VT2i).

The external connection allows for cartridge replacement without physical manipulation with the VinoTek.

Thanks to a 1.5 meter long tube, you can place the cartridge, for example, in a cabinet near the VinoTek.
